

THE INDUSTRY OF ALL NATIONS.

to describe it; and our fourth is from one of the numerous admirable STATUETTES, in Parian, ex-

hibited by this house. Of these Messrs. Minton & Co. have produced many, from original sources;

some after eminent foreign sculptors, but chiefly from the leading artists of our own school. In

the whole collection, we find abundant evidence of that matured judgment, and refined taste, by

which the manufacturers of Great Britain have been, of late years, elevated; and which, in the

present Exhibition, have so largely contributed to uphold, and will extend, our national repute.

ART-JOURNAL ILLUSTRATED CATALOGUE.

The silver manufactures of Mr. M. EMANUEL, of London, evince great taste in design, and some very excellent workmanship. He exhibits a variety of objects besides those we have here engraved, such as gilt candelabra, gilt plateau,

with china racks and medallions, processes of gold manufacture. The first we introduce is one of a pair of rock crystal CANDLESTICKS,

silver, and gilt, with figures of children, sea-horses, and marine objects, composing the base. The next is a Flower-Vase, of richly coloured glass, mounted in silver; the handles are made to represent boys climbing upwards to the

flower stems, and the pedestal is composed of groups of figures and horses. The two objects commencing the other columns are silver Dessert STANDS. The vine forms their stems, at the

base of which children are at play with animals; in the dishes are supported by a sort of trellis-work of the leaves and fruit of the vine. But the

indicating the "Seasons," is one of "Time," in the attitude of repose; above the dial is a bas-relief, representing the winds and their various

attributes; and, surmounting the top, is Phœbus driving the chariot of the sun; the composition of this group is full of spirit, and the whole of

the figures are exceedingly well modelled. Mr. Emanuel has done wisely in securing the services of an artist of acknowledged talent and repute.
