講演テーマ	Why Technology Regulation Matters: AI Governance as a Global Case Study (最先端技術の規制はなぜ課題なのか：AIのガバナンスに関するグローバルな事例研究)
講演日時	2026年5月21日 (木) 15:10～16:50
講演会場	茗荷谷キャンパス3階3C13
講演概要	This lecture explored the necessity of technology regulation from historical, policy, legitimacy, and contemporary phenomenological perspectives, addressing technological dependency and emerging tech hegemony challenges. Students examined comparative AI governance approaches in Korea (AI Basic Law), the EU (AI Act), the US (sectoral approach), and Japan (AI Promotion Act), focusing on regulatory rationales and Japan's strategic positioning in the global digital landscape.
