

Curriculum Map (Enrolled students in or before 2022)

The Department of Global Management, The Faculty of Global Management

The curriculum map indicates which subjects are related to the abilities to be acquired by graduation based on the diploma policy (policy for awarding degrees), and which subjects contribute to the achievement of the learning outcomes.

Category 1	Category 2	Course name	No. of credits	Course year	Required/ Elective	◎Most strongly related, ○Strongly related, △Slightly related			
						DP1 Foreign language and international communication skills essential for global business leaders	DP2 Understand various issues in a company's global activities from a business and economics-based perspective, and perform tasks properly based on an understanding of the organization and its activity mechanisms	DP3 Ability to grasp and analyze the current situation using statistical methods and techniques, and to develop management strategies for a company	DP4 Understand the historical, political, economic and cultural differences between one's own country and other countries, and build mutually beneficial relationships that lead to sustainable development
