

Curriculum Map (from AY2023)

The Department of Global Management, The Faculty of Global Management

The curriculum map indicates which subjects are related to the abilities to be acquired by graduation based on the diploma policy (policy for awarding degrees), and which subjects contribute to the achievement of the learning outcomes.

Category 1	Category 2	Course name	Major Courses	Numbering	No. of credits	Course year	Required /Elective	©Most strongly related, ○Strongly related, △Slightly related				
								DP1 "Knowledge Acquisition Skills" Acquire specialized knowledge and skills related to business administration, economics, and data science, which are essential to the study of global management, as well as a wide ranging education that form the foundation for such knowledge and skills.	DP2 "Communication Skills" With a high level of language ability, be able to listen to the opinions of others, understand their ideas, explain your own views in a logical and understandable manner, and build mutually beneficial relationships with others in a variety of domestic and international situations.	DP3 "Diversity Comprehension" Understand the diverse history, political economy, environment and culture in countries and regions around the world, and contribute to the development of a harmonious and sustainable society while recognizing and respecting differences.	DP4 "Organizational Dynamics" In order to achieve the goals of a team or organization, be able to perceive situations and constraints from multiple and objective perspectives, make effective judgments for organizational management, and act with a sense of ownership.	DP5 "Self-motivated creativity" Recognize the role of business and people required by the international community, and willingly propose ideas to create a truly prosperous future for humankind based on a sense of responsibility and autonomy.
