

Chuo Vision 2035

Toward the 150th, and Beyond

Chuo University has formulated "Chuo Vision 2035," a ten-year development plan leading up to 2035, the year of its 150th anniversary. Building upon the achievements and results of the previous ten-year development plan, "Chuo Vision 2025," which was implemented from 2016 to 2025, this new plan will drive the next stage of our evolution. We aim to ensure the university's further growth while responding accurately to the changing demands of the times.

Chuo's Founding Spirit

Fostering the Ability to Apply Knowledge to Practice

Mission

Promoting education and research that contributes to the development and advancement of culture, as well as to the welfare of society and humanity, and we cultivate individuals with "Knowledge into Action."

Vision 2035

"Vision 2035" outlines the ideal direction by the 2035 academic year, which commemorates our 150th anniversary

Vision 1

Inheriting the Chuo legacy and creating new value ahead of our 150th anniversary

Vision 2

Cultivating individuals through "practical learning" that develops the skills needed in an era of uncertainty

Vision 3

Promoting research that combines the "wisdom" cultivated through Chuo's traditions and advancing social co-creation

Vision 4

Creating environments to express individuality and talent

Vision 5

Maximizing Synergy through the consolidation of university resources

Mid-to Long-Term Strategies

To achieve "Vision 2035," the strategies defined for each Vision will be designated as the "Mid- to Long-Term Strategies"

Mid-to Long-Term Plan

To realize the "Mid- to Long-Term Strategies," the detailed initiatives defined for each strategy will be designated as the "Mid- to Long-Term Plan"
